## **DETAILED ACTION**

### ***Priority***

1. This application appears to be a division of Application No. 10/419,735, filed 04-22-03. A later application for a distinct or independent invention, carved out of a pending application and disclosing and claiming only subject matter disclosed in an earlier or parent application is known as a divisional application or "division." The divisional application should set forth only that portion of the earlier disclosure which is germane to the invention as claimed in the divisional application.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 17-19 are incomplete because these depend on cancelled claim 1.

### ***Allowable Subject Matter***

4. Claims 10-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art reference neither teach nor make it obvious as a whole the claimed limitation of the instant application, as recited in claim 10, either taken alone or in combination.

### ***Conclusion***
